Produktbeschreibung

Since 1715, Martell has carefully preserved the integrity and reputation of the Cognacs that bear its name, remaining loyal to the creative and inspired spirit of its founder; Jean Martell. Jean Martell had a multi-faceted personality. Both an adventurer and a scholar, a noble and a merchant, an aesthete and an entrepreneur, he was able to blend these different traits to forge an independent and creative character. It was his unique ability to create bridges connecting the best of things which has guided the creation of this outstanding Cognac. You will find this personality in the unique and balanced blending of Martell XO, which combines the elegant and mellow borderies Eaux-de-Vie with the power of Grande Champagne Eaux-de-Vie. Its rich, warm colour with mahogany coppery sheens, the spicy notes with hints of dried fruit on the nose, and a unique in-mouth experience conjuring round, smooth and fruity sensation will leave you with a feeling of sophistication and elegance.
